GRAND JURY TO CONSIDER SEVEN SERIOUS CASES

Fourteen Actions, Including One Murder Charge, To Come Before Body

WILL MEET NEXT MONDAY

Case Involving Two Prohibition Agents Charged with Assault Also Slated

Fourteen cases, seven of which involve serious charges, will confront the Grand Jury of Marion County Common Pleas Court in the September session scheduled for Monday and Tuesday, Sept. 13 and 14.

Actions to be considered by the grand jury include charges ranging from murder and assault with intent to kill to accessories of reckless driving and assault and battery.

The case of Dennis Large, Virginian, alleged murderer of Charles Edwards, of this city, is at present considered the most important case to be presented to the grand jury for consideration.

Large admitted to police that he killed Edwards and is charged with first degree murder. The murder was the result of an alleged love affair between Large's wife and Edward, a roomer at the home, Large said. He is in jail awaiting the session of grand jury.

The case of Dr. William H. Hinklin, [illegible] Church, alleged to have performed an illegal operation on Mrs. [illegible] C. Stapleton, 23, [illegible] May 7, is scheduled for the jurymen at 10 a. m. Monday.

Dr. Hinklin pleaded not guilty to the charges and was bound over under $1,000 bond.

Colored Man Up

William Boyd, alias Robert Prudential, 21, negro, being held in County Jail on charges of entering an inhabited dwelling with intent to commit a felony, will also come before the grand jury Monday.

Prudential, it is charged, early July 1926 broke into the dwelling of Thomas Hill, Caledonia, and is alleged to have attacked Miss Bertha Kightminger, sister of Mrs. Hill.

Prudential, officials say, admitted striking Miss Kightminger over the head with a hammer covered with an old cap. He claims to have entered the home with the intention of obtaining money and was forced to strike Miss Kightminger to escape discovery.

STUDER SURRENDERS TO CANTON AUTHORITIES

Lengel Prepares To Take Appeal from Decision of Commission

Canton, Sept. 10—Carl Studer, who testified yesterday in the hearing of former Police Chief Seranus A. Lengel, surrendered himself here today on a perjury charge which authorities said [illegible] grew out of his testimony during the hearing.

Studer is now under a federal charge of liquor conspiracy, a police charge here of operating a house of ill fame and the perjury accusation.

Assuming that the action of the Civil Service Commission in denying a motion by deposed Police Chief S. A. Lengel's council for an order recognizing Lengel as police head was indicative of their final action, Attorney James J. Amerman today declared to International News Service that an appeal would be taken upon the final decision.

"There has been a lot of political string pulling and I have not the slightest chance before this commission," Amerman declared.

Arrest of the man who financed the Mellett murder was deemed by certain investigators today as the next possible major development in the inquiry into the assassination of the crusading publisher.

RAIL MERGER ATTACKED BEFORE COMMISSION

Washington, Sept. 10—Plans of L. F. Loree to form a large railroad merger in the southwest were attacked before the Interstate Commerce Commission today by minority stockholders of the St. Louis Southwestern. Loree has applied to merge the St. Louis Southwestern, Missouri Kansas Texas and the Kansas City Southern.

Such a combination would not be in the public interest, said the minority stockholders' petition which asked for rejection of the application.

MARION SHIVERS WHEN MERCURY COLUMN DROPS

Temperature Slumps to 49 Degrees, Lowest Point Since Spring

Marion shivered and felt for more [illegible] early this morning when the mercury column settled to 49 degrees, the lowest point since early spring.

While the premature arrival of near-winter weather last night brought with it discomforts for a minority, it heralded the end of a long period of suffering for Marion's hay fever victims.

The sniffles have chased away the storm sneezes and sniffles that distorted the features and tortured the bodies of the victims of this dreaded early fall ailment.

According to the weatherman the present cold spell will continue until Saturday when slightly rising temperatures are forecast. No more rain is scheduled for the week, the forecast reveals.

Victims Want Frost

While farmers throughout the county are hoping that Jack Frost will delay his visit for at least several weeks, those who have suffered their annual attacks of hay fever are praying for an early arrival of the chilly gentleman.

That the weather of last night and this morning is vastly different from that recorded a year ago is shown in the report from the office of Official Weather Observer J. H. Raffensparger.

Starting at 76 degrees yesterday afternoon the temperature dropped gradually until it reached the low point of 49 early today.

As a decided contrast to this record the temperature a year ago yesterday dropped from 91 degrees to 71. The lowest temperature a year ago was only four degrees lower than the warmest yesterday.

BROTHER MAY CONTEST WILL OF VALENTINO

Guglielmi Retains Two Attorneys as Counsel; Will Determine Document's Fairness

Los Angeles, Sept. 10—A fight over the will of Rudolph Valentino, late screen star, appeared imminent today when it was learned that Alberto Guglielmo, brother of the actor, had retained two prominent local attorneys as counsel.

Two provisions in the will prompted rumors of a contest in the courts. These were the appointment of S. George Ullman, Valentino's secretary, as executor and the naming of Mrs. Teresa Werner of Salt Lake City as a third equal beneficiary with Valentino's brother and sister in the estate of the late actor.

Mrs. Werner is the aunt of Valentino's divorced second wife, Natacha Rambova.

Milton M. Cohen, one of Guglielmo's attorneys, announced that the last document will be carefully studied to determine whether it is a "fair will." If not, a legal contest will be started, he said.

NATACHA'S AUNT AMAZED TO LEARN ABOUT WILL

Antibes, France, Sept. 10—With her voice filled with emotion, Mrs. Teresa Werner, aunt of the late Rudolph Valentino's second wife, Natacha Rambova, declared today that she was amazed to learn that she has been made a beneficiary in Valentino's will.

"It was a great surprise that Rudy remembered me in his will," said Mrs. Werner. "I expected nothing, although he was a very dear friend of mine and I loved him very much.

"I know nothing about the amount I will receive."

Cincinnati, Sept. 10—Thirty four children and six adults miraculously escaped serious injury today when a huge pleasure bus in which they were riding flopped over on its side on the lower river road.

CITY OFFICIALS WILL DISCUSS REDISTRICTING

Conference Over Proposed Ward Increase To Be Held Saturday

Preliminary plans for redistricting the city of Marion by increasing the number of wards from four to six and its city council members from six to nine in accordance with provisions of the state law will be discussed at a conference of municipal officials to be held Saturday afternoon in the office of City Solicitor Grant E. Mouser Jr.

Two maps outlining proposed rearrangement of the wards have been completed by City Engineer [illegible] S. Cathers and will be submitted at the conference.

The new redistricting plan is expected to be adopted by City Council before Jan. 1 in order that the Board of Election may proceed with the work of revising the present precincts and completing details in preparation for the August primary of next year.

Complicated

The undertaking is one of numerous complications which will require weeks of careful and painstaking consideration. The task of fixing the boundaries of the six wards so that there will be no wide variance in the division of the population is one of the chief problems. This point has been closely watched by the City Engineer in preparing the two maps which will be placed in the hands of officials at Saturday's conference.

Under requirements of the state law the redistricting should have been given attention shortly after the 1920 census owing to the fact that the figures then showed that Marion had grown to a

OFFICIALS SAY MORE ADEQUATE SEWERS NEEDED

Claim City Will Always Have Flood Troubles with Present Facilities

Until more adequate storm water sewer facilities are provided, Marion will continue to experience trouble similar to the flood condition which followed the heavy rains of this week, city officials say.

The problem would be largely solved by the construction of a trunk line sewer leading west to the Little Scioto River and until this provision is made the overflow on the streets is said to be certain to continue when the rainfall is unusually heavy.

This is especially true in regard to the low sections of the west side where the situation is most serious. This was illustrated yesterday in the difficulty experienced by employes of the city's public service department in providing an outlet for water which flooded Olney avenue between Center and Church sts. following the heavy rain of Wednesday night. A force of men under the supervision of Service Director O. A. Ben[illegible] labored until [illegible] Thursday afternoon before the overflow at that point was removed. Practically all other streets throughout the city were clear of water before the noon hour.

Repair Work

Repair work on Blaine ave., where a large section of wood block paving was washed out by the deluge Saturday night and Sunday morning, is near completion. All of the blocks have been relaid and the street will be ready for use as soon as filler can be spread over the surface. This part of the world was deluged as a result of the rains Wednesday night and Thursday morning.

ATHENS AGAIN NORMAL AFTER BLOODY RIOTING

Fighting and Killing of 50 Result of Attempt To Dissolve Republican Guard

Athens, Sept. 10—Athens was rapidly returning to normalcy today after 24 hours of bloody rioting in which 50 were killed and more than a hundred wounded.

The fighting broke out as a result of an attempt by the Kondylis government to dissolve the republican guard, the officers of which are strong supporters of the recently deposed Greek dictator, M. Pangalos.

Refusal of the guard to disband led to a furious street battle in which artillery and machine guns were employed.

The government finally vanquished the guard after inflicting many casualties. Colonel Dertilis, one of the leaders of the mutineers, was among the wounded.

POLICE CLAIM ARRESTS NEAR IN BURGLARIES

Several Suspects in Series of Thefts Lined Up by Chief Thompson

Marion police today were working on clues which they expect to lead to the arrest of the person or persons who broke into six residences and burglarized three business houses of Marion and vicinity Tuesday and Wednesday nights.

Several suspects have been lined up by Chief James W. Thompson, who is in charge of the investigation, said today. According to Thompson, an arrest in connection with the case will soon be made.

The six residence robberies occurred on Harrison st. and Cherokee ave., late Tuesday night or Wednesday morning, according to police. At all of the houses the thief entered and made his exit through the cellar windows with the exception of one which was made through the back door of the house.

Nothing of value aside from a small amount of money was taken in the residences. Watches and jewelry were left untouched in several of the houses. About $17 in cash was the total loss.

Wednesday night robbery was attempted at the Boulevard Coal and Feed Co., Park blvd. Oil Co. Filling Station, Cheney ave. and the People's Bank of Green Camp.

Money or valuables were not obtained by the thieves at either the Oakland Filling Station or the People's Bank. The combination of the safe at the filling station was battered off but was not opened. Fifteen pennies were taken at the coal company office.

Channel is Swum in Record Time by Paris Butcher

Thirty Year Old Frenchman Takes One Hour and 38 Minutes Off Mark Established by Ernst Vierkoetten in Choppy English Waters

GEORGE MICHEL FAVORED BY IDEAL CONDITIONS

Starts Early in Evening and Depends Upon Low Tide for Success, Declares He Was Confident of Feat When He Dove into Water

LONDON, Sept. 10—The English Channel swimming record was lowered again today when George Michel, a Frenchman who has repeatedly attempted the crossing, negotiated it in the remarkable time of 11 hours and five minutes.

Michel started from Gris Nez at 8.32 o'clock last night and landed at St. Margaret's Bay, three miles north of Dover, at 7.37 o'clock this morning.

Michel's achievement surpasses the record made recently by the German Ernst Vierkoetten, of 12 hours and 43 minutes, by one hour and 38 minutes.

Upon landing the swimmer first fasted and then was bundled into a motor car and driven to Folkstone where he called upon the French consul.

Michel was favored throughout his performance by ideal conditions both of the weather and of the state of the water. This is the third attempt he made this summer.

Previously he had followed the advice of the experts that the only way to beat the channel is to start late at night in order to [illegible]. The advantage [illegible] high tide. Michel announced that he would swim on a new plan starting early in the evening and depending for his success on the low tide.

He's 30 Years Old

Before starting he announced that he would swim the distance in 11 hours at least, which he had done to five minutes in making good.

Michel, who in civilian life pursues the occupation of butcher in Paris, is well known as the swimming champion of France. He is only 30 years old.

Save for a mild [illegible] which made the sea a little choppy the water was extraordinarily smooth when Michel started swimming. A strong ebb tide carried Michel from Gris Nez northward in the direction of the Goodwin lightship. There the swimmer caught the flood tide running northeast bringing him within six miles of England.

In the last part of the swim Michel had to fight against the ebb and was able to defeat it because of his excellent physical condition. Had he failed against the tide he would have been

VESTRYMAN ADMITS HE HEARD SHOTS, SCREAMS

Gorsline and Choir Singer Were in De Russey Lane That Night, They Say

Somerville, N. J., Sept. 10—Ralph V. Gorsline, vestryman of the Episcopal Church of St. John the Evangelist, admitted to the authorities today, it is announced, that he was in De Russey Lane on the night four years ago when Rev. Edward Wheeler Hall and Mrs. Eleanor R. Mills, his sweetheart, were murdered.

Gorsline heard shots, screams and voices speaking on that fatal night, he told the authorities, according to Detective John W. Underwood, who directed an all-night examination of Gorsline and Miss Catherine Rastall, a choir singer and companion of Gorsline on the night of the double murder.

Miss Rastall made similar admissions, the authorities announced.

For hours during the night Gorsline and Miss Rastall had been grilled by detectives who had sought to break down the story they told four years ago—during the first investigation.

Gorsline's story then was that he met Miss Rastall by chance in front of the Y. M. C. A. and drove to her home a mile from the Phillips home. This occurred on the night of the crime, Sept. 14, 1922. He had reiterated during the first investigation that after leaving Miss Rastall at her home, he went home himself and remained there.

New York, Sept. 10—In the most sensational testimony, Richard Merton, German capitalist, today related to Federal Court details of the alleged $391,000 liberty bond "pay-off" in the transaction whereby he was able to obtain the return to German interests of $7,000,000 from the United States alien property custodian which had been seized during the war as German property.

Harry M. Daugherty, former attorney general in the Harding administration, and Thomas W. Miller, alien property custodian during that period, are being tried before Judge Mack, charged with conspiring against the government in connection with their alleged participation in this deal.

Merton testified amid deadly silence in the courtroom that he turned this "Liberty Bond pay-off" over to the late John T. King, Connecticut politician, in the lobby of the banking house of Goldman, Sachs & Co. in New York City.

Merton, a wealthy businessman of about 40, was brought here from Germany by Emory R. Buckner, United States attorney, to disclose details of the alleged scheme whereby he was able to obtain the return to German interests of $7,000,000 from the United States alien property custodian which had been seized as German property during the war.

CHANNEL SWIM

compelled to swim several hours longer.

Only a few persons were on the beach when the Frenchman landed. After a rest, the party went to a public house, "The Green Man," in St. Margaret's Bay for a bath and breakfast before returning to Boulogne.

Between mouthfuls of ham and eggs which he ate ravenously, Michel described the swim.

"Before I entered the water last night," he said, "I felt I would be able not only to swim the channel, but break Verkoellen's record. As soon as I had swam half an hour, I was more certain than ever, although there was a little trouble about 1 o'clock this morning when the sea began to get rough."

SWIMMER HAPPY OVER HIS SUCCESS

Cape Gris Nez, Sept. 10—There was considerable rejoicing in the camps of the swimming enthusiasts here today when more complete reports of the feat of George Michel in breaking the channel swimming record were received.

The earlier reports had been received with some skepticism and even now there are some who are inclined to make criticisms.

However, there are no official channel swimming regulations and no rules for timing and Michel's claim must stand, unless it is disproved.

Michel entered the water at exactly low tide which, according to the experts, is the most disadvantageous time for starting.

Michel, however, is easily France's premier swimmer, having recently won the Seine marathon of 20 miles.

HERE'S MORE ABOUT

CITY REDISTRICTING

STARTS ON PAGE 1

point where it should have six wards instead of four and a City Council of nine members instead of seven. The law provides that seven councilmen is the minimum for cities of 20,000 or less and that when the population reaches 25,000 two members must be added to the city's executive body as ward representatives. As Marion's population totaled 27,891 in the 1920 census, it automatically entered the nine-councilmen class.

The law further provides, however, that the secretary of state shall issue a proclamation to all cities following every census notifying them of their official population figures and that within three months thereafter the city council shall proceed with the redistricting. Investigation showed that no such proclamation was ever received here, relieving the council in charge of affairs at that time of responsibility for failure to comply with the law.

After the oversight here was discovered about a year ago, question arose regarding the legality of legislation enacted by Marion's city council during the years following the 1920 census. A ruling was obtained from the Attorney General of the state showing that while the City Council here has been merely a de facto body because of not having the required membership, its acts have been legal and binding.

Further Moves

After the redistricting work is completed, further moves along that line will not be necessary until Marion's population has grown to 40,000, the law specifying that an additional councilman must be added for every 15,000 increase after a total of 25,000 has been reached. This continues until council membership has reached a maximum of 32.

Records show that during the last 30 years or more, every census has registered an average increase of 10,000 in Marion's population. Basing present estimates on that ratio, the population at this time is placed at more than 32,000 with probability that the 1930 census will show a total of over 37,000. This means that the City Council membership would stand at nine members until 1940.

Six Wards Proposed

The present council is made up of three members elected at large and four by voters of the separate wards. Following the redistricting there will be six ward members.

Saturday's conference will be attended by a committee of three from City Council, the City Engineer, the clerk of the Board of Elections and the City Solicitor, the last named official acting solely in the capacity of legal advisor.

SCHOOL ENROLLMENT CONTINUES TO GROW

Total of 4,853 Students in Grade Schools; Harding High Unofficial Enrollment 813

Enrollment of Marion Public Schools with the exception of Harding High School, totaled 4,853 students, today, it was announced by Supt. Jesse Mason.

The number enrolled today is just 172 more than were listed the first session of school last Tuesday, according to the announcement.

An indefinite enrollment of Harding High School was set at 813 today.

Wednesday the attendance at the city schools was 4,802 and Thursday the number jumped to 4,846.

GRAND JURY

STARTS ON PAGE 1

Columbus, charged with attacking Joe Totaro, W. Center-st, confectioner, with attempt to kill, will come before the grand jury Monday afternoon.

The two agents, Totaro claims, entered his store on W. Center-st, and attacked him, striking him over the head with a blackjack.

The prohibition agents first filed charges against Totaro, charging him with possessing and selling intoxicating liquor. The case was heard in Justice M. O. Stoll's court and was dismissed for lack of evidence.

The dry agents claim that Totaro resisted arrest when they presented a warrant issued against him from Justice Stoll's court and containing the liquor charges. They deny hitting Totaro with a blackjack. The men were bound over to the grand jury under bond of $1,000.

Reckless Driving

Evidence in the accident on the Bucyrus-rd, July 10 in which Charles Wensinger, of Fremont, suffered fatal injuries, also will be presented to the jury by Prosecutor Wiedemann.

Donald Mayes, Scranton-av, has been released under a bond of $200, following his plea of not guilty of reckless driving on the Bucyrus-rd that night. He was bound over to the grand jury on charges of reckless driving.

Mayes was driving a Chevrolet car which crashed into a Ford sedan of A. E. Grant, Cherry-st, crushing Wensinger between the Ford and the Rickenbacker car of H. E. Benedict, Summit-st. Wensinger died as a result of the injuries. Mayes faces possible indictment for manslaughter.

A statutory charge of Miss Lavina Smith against Oria Kruscamp, both of Marion, also will come before grand jury in the September session.

The embezzlement case of Brand Bros. Wholesale Fruit and Vegetable Co. against William Briggs, Marion, is scheduled for the jury on Tuesday. Brand Bros. accuse Briggs, a collector for the firm, of not turning in money collected from patrons.

Charles Bishop, Hocking Valley Railroad fireman, 304 Brown-av, charged with assault and battery against his wife, Bessie Bishop, and his daughter, Mrs. Bertha Arnett, will be brought before grand jury. Bishop has pleaded guilty to charges of his wife but denies that he attacked his daughter.

One case involving charges of petit larceny will be presented to the grand jury Tuesday. Mrs. Alice White, of this city, charges Irene Rathbone, Leader-st, of stealing a purse.

Another case of assault and battery charges filed against Fred Wilson, of Marion, will be considered.

Three reckless driving cases are booked for the grand jury. The three persons facing charges of this nature are Joe Dust, J. E. Kinder and Paul Strong, all of Marion. Each person pleaded not guilty to the accusations in Justice of the Peace courts and was bound over under bond of $200.

The session of grand jury opens at 9 a. m. Monday and is scheduled to come to a close late Tuesday.

Another amazing phase of the thing is how it happened that all these swimmers contracted channelitis at the same time.

Senator Lenroot went down in defeat up in Wisconsin but what he did to the La Follette state machine was simply something awful.

Dr. Walter Williams says the newspapers put up the signboards by which the world travels. That's all right if he doesn't attempt to hold them responsible for the detours.

The people of England have been hearing odd noises and seeing green lights in the skies and the odd phase of the thing is that they haven't any bootleg stuff over there.

The president's oil conservation commission has reported that the visible oil supply in America will last us only six years. There yet may be a chance for some of us to be aristocrats.

We didn't think it possible when they first came out, but the occasional plus fours on ten on the streets look funnier and funnier day by day.

"What I want to know," observed the restaurant philosopher at luncheon today, "is how in this day and age the Chicago officers enforcing the curfew ordinance are going to tell whether the girls up there are sixteen or sixty."

There must be times when our old friend Senator Hiram Johnson is more than half inclined to suspect that he has been joshing himself in assuming that he is California's favorite son.

In "Twenty Years Ago Today" we note that the women teachers of Marion were complaining because the oiled floors of our school buildings were ruining their skirts. It would take a mighty vivid imagination to picture anything like that happening today.

Over in Europe hand baggage is inspected at frontiers but if dry vigilance goes much further over here the traveler is liable to have his inspected at every town and sometimes in between.

Apropos of the horror of some of the amateurs over the fact that Miss Browne has followed Miss Lenglen in turning professional, it may be said that the trophies won in different lines of sport by absolutely pure amateurs without a mark against them and later on hocked would probably fill a ten acre field.

The Schools of Marion

The report recently compiled and given out for publication by Deputy Auditor Earl [illegible] Thomas once more calls general attention to the big figure cut by our schools in the cost of government. We are expending practically $1,000,000 a year, about evenly divided between the city and county, for the maintenance and operation of our schools. If there is appreciation of the educational facilities they offer to our youth and proper advantage is taken of them, few if any will hold that even so large a sum as we expend on our schools is not well invested.

It was not always so, but today a city's educational advantages have much to do with its growth in population as they are almost invariably considered by prospective newcomers. Parents want their children to receive educations. Possibly they may first be attracted by the physical appearance of a city, but they will pass, and often entirely overlook, its situation for location, its tax rate, its shipping facilities, its water supply, its industrial and commercial interests, its location with reference to other cities and the highways leading to it, its churches, its amusements, its places of recreation and dozens of other matters of importance to ask about its schools. Also corporations, when seeking a location, want to know about its schools, for any capable corporation executive knows that employes will be neither satisfied nor happy if there is not at hand facilities for the schooling of their children.

Thus it is that we consider Marion particularly fortunate in her schools. We believe them to be such that they will have strong appeal to prospective newcomers. From the report mentioned we glean that they are in good financial shape with prospects of a continuation of funds equal to their needs for maintenance and operation. At the head of them is a superintendent popular with teachers and pupils alike, who is under contract for a term of years. His salary is one which should be satisfactory to him and justify him in giving his entire effort and best endeavors to the schools rather than, as is so often the case, looking about for a more attractive field. It is conceded that the corps of instructors under him is an excellent one which heartily doing its utmost to further his plans and policies. Under these circumstances it is next to impossible to see how the public schools of Marion can do other than prove of great influence in developing the growth of the city and the prosperity of its citizenship.

Storms Past and Present

[illegible] were then [illegible] populated [illegible] and property [illegible] now [illegible] of mankind [illegible] wealth of the [illegible] of thousands [illegible] wealth [illegible] have invested their wealth in [illegible] improvements [illegible] in all [illegible] the improvements [illegible] with wealth [illegible] with all that our country [illegible] the present [illegible] upon the face of the earth. Hence it is that [illegible] the damage [illegible] the storm of three or four decades.

As a matter of fact [illegible] not recall in thirty years of rather close newspaper reading a storm of equal [illegible] of the preceding thirty years. We have in mind the [illegible] hurricane which swept the Samoan islands in 1889 [illegible] a wind velocity of 200 miles, and [illegible] was swept away. Imagine the life and property loss which would result in almost any of our [illegible] in the path of such a storm today.

[illegible] all things considered, we refuse to believe that our storms of today are either more frequent or more severe than have been those of the past, though we admit from the very nature of things that they are bound to be far more costly, all other things equal, in life loss and property damage.

A stray item says that Texas Republicans propose to wrest the state from Democracy. The pluralization makes manifest that another one must have moved in.

The Philadelphia Record quotes President Calles as saying that the land laws are just what the Mexicans want and non-enforcement of law what the Americans want. There may be something in it. Anyway, non-enforcement is what we have become accustomed to up here.

Americans are said to have expended $ [illegible] 000,000 in France thus far this year. Anybody acquainted with the French is bound to look upon those stories of insults to Americans as most decidedly fishy.

A Columbus item says that to take all the courses leading to all the degrees conferred by Ohio State university would take 100 years, which period strikes us as a trifle too much time to give up to lectures, valuable as they may be, in the hurly burly of this old life of ours.

In the lower left hand corner of the invitations sent out for the wedding of a society prominent New York City couple appeared the words "No [illegible] seats." If that becomes the fashion it [illegible] to remove the incentive to marriage for some people.

Mr. Mellon says he hasn't seen the slightest sign of any lack of prosperity in Europe, but it's just possible that, like many other Americans who go over there to study conditions at first hand, he is spending most of his time with friends and acquaintances in hotels and restaurants de luxe.

A Just Criticism

Some months since a well known English writer who had driven through the rural sections within a circle of a hundred miles drawn about New York City was asked to give his impression of our country districts as seen by him. After some hesitation and with manifest reluctance he replied that he had found everything very untidy.

Doubtless had the [illegible] writer driven through the less prominent streets and the alleys of almost any of our cities his experience could have been much the same. This is the experience of foreigners who [illegible] This is the experience of Americans who [illegible] abroad and visit England, France, Switzerland, Germany and northern Italy. They are shocked by the appearance of our city streets, having in mind the cleanliness of the city streets they have seen abroad. There are some exceptions to the [illegible] exception [illegible] of the streets of the average American [illegible] cannot be compared with the cleanliness of the streets of the average city in the countries named and [illegible] far more [illegible] back yards and country [illegible]

MRS. MEDILL McCORMICK

Friends of Mrs. Medill McCormick, widow of the late Senator McCormick, are urging her candidacy for governor of Illinois if Governor Small decides to retire. He has had two terms and is now considering the advisability of trying for a third.

Mrs. McCormick, a daughter of Mark Hanna, is the Republican national committeewoman from Illinois and is an expert on state political conditions. She recently published a political handbook for Illinois.

Mrs. McCormick is living on her estate at Byron, Illinois, where she is giving much attention to breeding fine cattle. She was bequeathed $[illegible],000,000 by the will of Senator McCormick and recently gave $100,000 for a memorial church in Washington in which the senator was interested.

Mrs. McCormick has shown evidence of inheriting much of her father's political ability. She took an active part in all her husband's campaigns and aided in making the McCormick residence in Washington a notable gathering place for public leaders.

Wilson-Jackson Wedding Solemnized

A pretty home wedding was solemnized at 1 o'clock Wednesday afternoon at the home of Mr. and Mrs. Sherman Jackson, Mt. Gilead, when their daughter, Miss Ann Elizabeth Jackson, became the bride of Ray K. Wilson of this city. Rev. D. H. Cramer, pastor of the Linden Presbyterian Church, Columbus, read the double ring service in the presence of a small company of relatives and close friends.

During the service she played softly Nevin's "Venetian Love Song," followed by the recessional.

The bridal party stood before an altar of pink roses, gladioli and sweet peas banked with palms and lighted with cathedral candles and lights shaded in pink and orchid. Southern smilax and mock orange blossoms formed an archway to the living room and baskets of white hydrangeas and pink asters completed the decorative effect in pink and white.

Bride's Gown

Mrs. Wilson wore for her wedding a gown of white satin back crepe made with a bodice top with full ankle length skirt over which she wore tulle finished with three ruffles of white satin ribbon. She Bared Her Soul!

To the man whose kindly tolerance and sympathy have put thousands back on the road to happiness

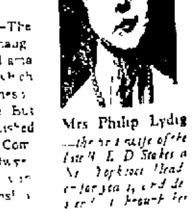
AND she was but one of hundreds who have done the same—told secrets she would not tell her mother—or perhaps her husband—but in the confessional of the Judge's chambers she revealed all. Her story and the stories of scores of others—men as well as women—are now being retold for society's good by Judge Ben B. Lindsey in the most candid and startling series of articles ever published in any magazine. Reasoning from the stories of real life told him in court day after day, Judge Lindsey has reached certain conclusions, and now he boldly asks "Is a new code of sex morals being created?" It is a startling question—but a question that has heretofore existed unasked in the minds of all intelligent men and women and it is no more startling than the evidence that Judge Lindsey offers in his great series of articles under the title "The Moral Revolt."

"The Moral Revolt" By Judge Ben B. Lindsey
Judge of the Family Court of Denver

When you have read the first of the Judge's articles and considered it, turn a few pages of the same magazine and read the first article in another astonishing series in which the internationally famous beauty and social leader—

Mrs. Philip Lydig Reveals Secrets of New York Society

ALMOST since girlhood beautiful Mrs. Philip Lydig has been an unquestioned leader of New York's ultra smart society. Now for the first time Mrs. Lydig proceeds to turn the spotlight on that society—telling its great deal why she thinks it futile, false and corrupt. The statements she makes will astonish you—s[illegible] after stories of tragedies heretofore never publicly disclosed. If [illegible] of the real lives of the prominent, its fashionable—here of [illegible] to the [illegible] of [illegible] of [illegible] then you must read Mrs. Lydig's revelations [illegible] "Marriage Without Love." In these two remarkable series—the one by Mrs. Lydig, the other by Judge Lindsey—The Red Book Magazine for October inaugurates its new plan of adding the drama of Fact to the drama of Fiction—which latter is expressed by Rupert Hughes in his splendid novel "We Live But Once" and by these other distinguished novelists and story writers: Ruth Comfort Mitchell, James Francis Dwyer, Struthers Burt, Samuel Merwin, Leroy Scott, Thyra Samter Winslow, Robert Benchley, Wm. H. Osborne, Arthur K. Akers and Michael J. Phillips



Mrs. Philip Lydig
—the first wife of the late W. E. D. Stokes, a New York real estate magnate, considered a great beauty, her mother of the Spanish Duke d'Alba

"Too Tired to Move"

HOW often we hear a woman use this expression! She is in a weakened and run-down condition, not fit to do her work. Bravely she struggles on. She becomes nervous and discouraged.

Whether she lives in a luxurious apartment, a cozy bungalow or a crowded city flat, every woman can understand the handicap of poor health. The woman in moderate circumstances suffers more, of course, than her well-to-do friend because she cannot afford to hire help.

In spite of her efforts her house begins to look neglected. Her children say, "Mother is so cross."

Eagerly she listens when a neighbor tells her of other women who found the road to health and happiness.

Health! That's the answer to so many of our problems. Without health a woman cannot make her home the happy haven she dreams of.

Mrs. Gordon Snow of May View, Illinois, is one of the many women who have improved their health by taking Lydia E. Pinkham's Vegetable Compound. She was in a run-down condition which caused her much unhappiness.

Mrs. Snow says, "I have taken Lydia E. Pinkham's Vegetable Compound and I think it is the most wonderful medicine I ever tried." She declares that she is now in better health than ever before.

have discarded old hygienic methods for this new way—true protection—discards like tissue

WHEN the world started expecting more of women, the old-time "sanitary pad" had to go. Doctors urge a new way. Millions employ it. You wear sheerest frocks without a second thought, any time, anywhere. You meet every day unhandicapped.

It is called "KOTEX" . . . five times as absorbent as the ordinary cotton pad!

Thoroughly deodorizes . . . thus ending ALL fear of offending.

✓ Discards as easily as a piece of tissue. No laundry. No embarrassment.

You ask for it without hesitancy simply by saying "KOTEX," at any drug or department store. Costs only a few cents. Proves old ways an unnecessary risk.

KOTEX

No laundry—discard like tissue

No more unsightly Pimples!

S.S.S gives you a clear skin

WHAT a delightful sensation to look in your mirror and find your face free from pimples, blackheads, blotches and other skin blemishes. Isn't it wonderful to see your face radiant with red blooded health!

Pure, red blood is what it takes to have a lovely skin. Facial blemishes can't be covered up successfully. Nor will anything else drive away these unsightly pimples and such, but the cleansing of the blood and the adding of rich, red blood.

And that's what S. S. S. does. All those objectionable blemishes will vanish and your skin will become soft and clear. S. S. S. has been such an aid for generations.

Everybody is attracted to the girl with a rosy, healthy coloring—the girl with the soft, velvet like skin—a skin so lovely that it tells of boundless health and vitality. There is no excuse for disgusting eruptions on the skin. We know they can be driven away quickly with a powerful blood alterative such as S. S. S. has proven to be for 100 years. Start taking S. S. S. today. And get the larger size bottle. It's more economical.

FACE DISFIGURED WITH PIMPLES AND BLACKHEADS

Druggist proves a friend in need

Kalispell Mont March 1 — Two years ago my face was an awful sight. The skin broke out with pimples and blackheads and itched all the time. I washed it frequently and applied various salves, but they helped little. One day I asked a druggist for a good cure for my case and that night I took home a small jar of Resinol Ointment. Every morning and night I washed my face and applied the ointment rubbing it in good. After a few treatments I noticed the pimples were starting to decrease and in two or three weeks they were practically gone. I was so well pleased with the result that I now keep Resinol on hand and recommend it whenever I can. (Signed) Elkna E Berry, 1028 Third Ave West

"... a face staring at him through the glass ... a sinister, livid face, in which was set a pair of glittering black eyes ..."

John Hammond Has Written a *Super-Thriller!*

The most fascinating story of mystery, love and money that has appeared in years, moving tensely and breathlessly through scenes of thrilling drama to a soul shaking climax. Now you are in a cul de sac in Paris among the dread Apaches where Alison is fighting desperately for his life ... next you are in Colonel Dorrington's home listening to the charming Jimmie make ardent love to the bewitching Powder Puff ... a moment later and you are off again on the ominous and tangled trail of mystery.

It is magically and vividly written, packed with startling situations and bold graphic strokes of description so that you will find almost as much to grip you in the style as in the story. Its name is—

SECOND ROUND OF GOLF TOURNEY IS IN PROGRESS NOW

Eight Stars Finish First Round with Good Scores

Golfers entered in the annual Vice President Cup tournament at Marion Country Club are finishing the first round.

Smith and Dennis were scheduled to play today and Rapp and Mahla will meet in a day or so. Others have turned in the following scores:

F. W. Bacon won from Dan [illegible] Marchi [illegible] Dr. L. H. Morgan eliminated Dr. [illegible] Murphy 5-4 H. W. Hane won from [illegible] J. J. Hane beat Frank Wiedemann [illegible] Longsmore beat Dr. H. K. Mouser 5-4 and K. M. Bower put Dr. F. J. Brady out of the running 5-4.

Bower had sweet revenge when he defeated Prady, winner of the President's Cup tournament in July as a result of beating Bower in the finals. Now Bower has a good start to win the Vice President's cup.

F. W. Bacon was an easy winner over LaMarche in the first round as a result of having such a large handicap. Bacon is only a first year golfer and indications are that club [illegible] officials [illegible] in placing his handicap.

H. W. Hane, winner of the club championship in August, is one of the men picked to step [illegible] in the semi-finals. If they meet Hane plays a steady game and will make a match for Bacon regardless of handicap.

Second Round

The second round is starting. F. W. Bacon will meet Dr. L. H. Morgan. H. W. Hane and the winner of the Smith-Dennis match will play. J. J. Hane will entertain the winner of the Rapp-Mahla match. [illegible] is to play K. M. Bower.

Jack Dempsey has now been idle so far as actual fighting is concerned for nearly three full years. The titleholder has not engaged in a ring combat since he defeated Luis Angel Firpo in their memorable battle at the Polo Grounds on September 14, 1923.

Johnson's Shut Out Record Unchallenged in History

Chicago, Sept. 16—Walter Johnson's remarkable record of 113 shutouts established a fortnight ago with a 9 to 0 victory over the [illegible] stands unequalled [illegible] baseball history.

Of Johnson's nearest competitor officially recognized is Grover C. Alexander, [illegible] Cub and now a Cardinal [illegible] although a hurler [illegible] who has achieved [illegible] shutouts in fourteen and a half years of the [illegible]

Alexander's [illegible] distinction of 16 shutouts in one season, accomplishing this feat in 1916 while a member of the [illegible] and his [illegible] number [illegible] shutout [illegible] in four of three [illegible] for the Phillies in 1911.

Johnson's [illegible] shutouts [illegible] back in 1907. [illegible] Walter who in 1913 pitched shutout ball in [illegible] the [illegible] in the fourth inning [illegible] 11 with a total of [illegible] innings.

Nearest Competition

[illegible] Ed [illegible] Chicago [illegible] record [illegible] Brooklyn [illegible] in 1908.

[illegible] a young right-handed pitcher who was a sensation in class C baseball back in 1917 has [illegible] innings than [illegible] but his achievements are not officially recognized in the game's records. Pitching for the South Bend [illegible] in the Southern Michigan League [illegible] 12 consecutive shutout games but in his start to better the record [illegible] by Johnson he failed utterly [illegible] couple of blows allowing the enemy to score in the opening chapter.

The laurels for the most consecutive scoreless innings in one game rest on the head of [illegible] who pitched [illegible] against [illegible] on May 1, 1920, for the Dodgers [illegible] the Braves over twenty-six innings. Joseph Harris [illegible] of 20 [illegible] with the Phillies on September 1, 1906, while the Braves lost 1 to 1.

Interesting Facts

While all these facts are interesting in themselves, they stand out in the minds of present day fans [illegible] Johnson and Alexander, two old war [illegible] who are still on the battle front [illegible] the most conspicuous places among them.

[illegible] of their individual feats [illegible] remarkable than those of [illegible] famous old pitchers but in the [illegible] unequalled [illegible] not in any immediate danger of being effaced, particularly since [illegible] and Alexander are still on [illegible] as usual.

Johnson especially has an excellent chance of bettering the present record for shutout games. Walter [illegible] will [illegible] one or more such triumphs this year and no one has yet ventured the opinion that this is Barney's last campaign.

ATHLETICS ARE PRACTICING FOR SUNDAY'S GAME

Cleveland Clothiers Are Coming Loaded To Battle Locals

Preparing for their game Sunday afternoon with the R. B. Clothiers, Cleveland Class AA team, the Athletics held a snappy practice last night at the Marion Steam Shovel Company's athletic field. It was one of the best workouts the locals have had for several weeks.

Is class AA ball as played in Cleveland, the city of semi-pro baseball, faster than that played by the teams which have visited Marion this summer? The R. B. Clothiers who meet the Marion Athletics in a double header at Lincoln Park Sunday afternoon, think it is. Manager Francis Bacon and his warriors do not think so. And Sunday afternoon the fans of Marion will have the chance to judge for themselves.

Loaded For Athletics

Many big leaguers have been recruited from the sandlots of Cleveland, among them being Rube Marquard, who was for years one of the leading pitchers of the National loop, and George Uhle, who is now one of the best twirlers on the Cleveland Indian staff. Most of the players in the Class AA Leagues, which the R. B. Clothiers play, have seen service in some league or organized ball.

The Drew brothers, catcher and right fielder, played last year with the Collinwood Shales, who won the world's semi-pro title in Cleveland last fall. One *of the toughest teams the* Shales had to beat, the Spencer Diamonds, whose leading pitcher was George Tallert. This same Tallert will likely pitch one of Sunday's games against Marion. Kohr, another catcher, was in the Three Eye league last year. Another pitcher is the well known Marty Lesleger, who has been one of the leading semi-pro twirlers of the Sixth City for several years.

Locals Are Winners

The record the Clothiers bring with them *is an imposing one, but the Athle*tics claim to have a little record of their *own, and many a team has gone out to* Lincoln Park this season to add another game to their winning list, only to leave wiser and sadder. The Cleveland aggregation has defeated some very good teams this season, but the same can be said for Marion's representatives.

To quote Francis Bacon: "The Clothiers have beaten teams that we have not, but they are teams that we have not met. We also have taken over some teams that thought they could not lose. One thing is certain. The Athletics are not beaten until the twenty-seventh out is made."

The recent spurt of the Omaha team has furnished one of the season's sensations in the Western League pennant chase.

TWENTY-FIVE CANDIDATES ON LA RUE HIGH SQUAD

Only Four Games Scheduled Thus Far; Woodstock High Is First Opponent

LaRue, O., Sept. 10—The LaRue High School football practice started with a great deal of enthusiasm this week with workouts coming in the middle of the day to permit the country lads to try out for the team and go home on the busses in the evening.

Coach Kermit Jackson has twenty-five candidates with about nine letter men working hard for the opening game which will probably be Sept. 24th with Byhalia.

There are many open dates as yet on the schedule, the only dates filled are Oct. 8th, Woodstock, there; Oct. 15 Richwood, here; Nov. 5th, Forest, here; Nov. 19th, Richwood, there.

Workouts thus far have consisted of punting, tackling, handling the ball and general conditioning. No scrimmage will be *attempted before next week.* Coach Jackson states that the men *seem to be in splendid physical con*dition for the start of the season and with the large number of letter men on the squad he is looking forward to a successful season.

BIG BOUT SHOULD END BY KNOCKOUT

Tradition Shows That Majority of Champions Were K. O.'d

"If the belt sees the fight Tunney will beat Dempsey."

I've heard this remark from a score of fight fans. I wish I could tabulate all the beliefs I get from fans and friends just to check up on the range in my leisure moments. But to get back to the above opinion.

It is reasonable, in a way, to suppose that the challenger, younger and more cautious, will fight a safe battle and that, barring an unfortunate accident to his hopes early in the bout, will find himself facing the champion tiring and the end and outpointing him by his deliberate plan of action.

But those who see in such an outcome a victory for Tunney overlook one fact. That is that since the dawn of the modern era in boxing only two champions have lost their crowns on decisions. The others have been totally oblivious to the presentation remarks of the referee as he handed the crown to the new king. The two champs named have never been ranked with the real kings.

One of those marked the passing of Marvin Hart, one of the unsung holders, who won the honor through his predecessor's generosity. Jim Jeffries, in 1905, decided to quit the ring. He offered his crown to the winner of a battle between Marvin Hart and Jack Root. Hart stopped Root in 12 rounds and was handed the title.

He lost the title to Tommy Burns in a 20-round battle Feb. 23, 1906. Burns in turn saw the mantle lifted from his shoulders when the police halted his battle with Jack Johnson in Sydney, New South Wales, Dec. 25, 1908. It was generally believed, however, that the interference of the officials saved Burns from being knocked out a round or two later.

Beginning with John L. Sullivan all the other champs met their ends via the knockout route and the new champs were, by the same token, victors via the k. o. route.

It is tradition, seemingly, that a heavyweight champion shall go down *fighting*—the new king shall come into his own by the emphatic method of *being the only boxer standing erect in* the ring when the fight ends.

One *expects a measure of science, of* endurance and of skill in these battles—between the best in the game and the man who hopes to wrest that honor from him. But it is accepted that the challenger shall prove his superiority decisively—and the best way to do that is knock the jolly champion hors de combat or just west of that.

So the logical ending for the Dempsey-Tunney fight is a knockout. It is entirely up to Messrs. Dempsey and Tunney who the knockerout and knockee will be.

Among "new women", it is encouraging to see how many of them are actually old.

WITTENBERG STAR COMES TO MARION TO HELP SPROUT

COACH ALLEN COMPTON

Assisting Coach Paul Sprout at Harding High School is Coach Allen Compton who arrived here yesterday from Wittenberg College. Coach Compton will direct the local high school basketball team this season and assist Coach Sprout in starting his eleven in the North Central Ohio Scholastic League.

Long before the English Channel was crossed for the first time by a swimmer—Captain Webb, in 1875—champions of many lands had pitted their skill and powers of endurance against the Channel seas. So many failures had been recorded, in fact, that the feat was generally considered to be beyond human strength and stamina.

TEAMS PLAY FOR SHOVEL TROPHY

Apprentices and Welders Battle Tuesday for Shop Championship

Pennant winning teams will play Tuesday night to decide the Marion Steam Shovel Company's recreation ball championship.

The Apprentices, National League champions, will meet the Welders, American League leaders for the company's trophy cup. The game will be called at 6 o'clock.

ANTHONY CLEANERS GO TO MANSFIELD TO END SERIES

The Anthony Cleaners, unbeaten in two series, are going to motor to Mansfield Monday night to meet the Mansfield News Journal's All Star team at [illegible] field. The game will be called at 5:30 o'clock.

Monday's game will be the last of a three game series. Play will continue until one team wins.

The Cleaners and the All Stars have played two scoreless games this season and the local boys say that it is about time to decide which is the better team; or at least which team is able to score first. The local men plan to leave here early Monday afternoon so as to arrive in Mansfield in time to start the game early.

That
Final Touch

When you light a Lucky Strike, you get more than the usual enjoyment which comes from an extra-fine cigarette.

You get the choicest Turkish and domestic tobaccos, properly aged and perfectly blended—and something more.

The extra goodness of Lucky Strikes is due to toasting—a costly extra process.

Lucky Strikes offer you:

1. *Finer Flavor.* Toasting for 45 minutes develops the hidden flavors of the world's finest Turkish and domestic tobaccos.
2. *Smoothness.* Toasting for 45 minutes removes all "bite" and harshness, hence never any throat irritation.
3. *Freshness.* Then the tobacco is suddenly chilled. This seals the flavor in and insures constant freshness.

If judged only by comparison of tobaccos, Lucky Strikes would be the best on the market. But the extra process is a final touch, making Luckies far superior.

[illegible] she had forsworn [illegible] forever. Miss Desmarias [illegible] mind, as girls some- [illegible] took him back.

[illegible] months ago Anita began a [illegible] with Meuer, an [illegible] the Western city. [illegible] acquaintance through [illegible] of a publication.

[illegible] were exchanged and [illegible] followed. Eventually a proposal sped eastward. The girl sent back her written "yes" but in all the months they wrote they never met.

Then Miss Desmarias began her plans for the wedding. The date was set for June 21. The priest at the Holy Rosary Church was ready, the guests had been invited and wedding presents poured in.

On their wedding morning a telegram came. Somehow Meuer had lost his money, became stranded in Chicago and called it off.

Meuer arrived in Gardner a few days ago, having recouped his lost fortune. With her sweetheart face to face, the girl relented, listened to his explanations and pleadings, and agreed to go through with the wedding.

Gisella Neu Comes to America Seeking Success with Violin

GISELLA NEU

NEW YORK, Sept. 10—The door to fame is about to open for Miss Gisella Neu. At the age of 11 this girl violinist, then in Budapest, first attracted attention. Following successes later there and in Vienna she went to Havana, Cuba, and there made her debut with Titta Ruffo. Now she is here ready for a series of recitals which she hopes will win her lasting favor with American audiences.

IRISH LINEN IS HIT HARD WHEN TRADE CHANGES

United States Now Going To Continent for Supply, Say Business Men

Belfast, Sept. 10—Transference of United States custom from Ulster to other parts of the European continent is one of the main causes of the present parlous state of the Irish linen industry, according to prominent business men here.

The United States formerly consumed seventy per cent of the linen produced in Ireland, but with the realization that she could buy many linen and associated lines far cheaper than the Irish product in other parts of Europe, this consumption has been reduced easily by two thirds, according to current statistics.

How badly the Irish linen concerns are being hit is revealed in the statement of G. S. Graham, chairman of the York Street Flax Spinning Company of Belfast, to the shareholders of the company at the recent annual meeting, when it was again reported there *would be no dividend on the ordinary* shares.

"The first essential for profitable working is a fair average demand for our products," Graham said in moving the adoption of the report. "This unfortunately has been wanting. It cannot be said that the demand from any *important linen-consuming market in* the world is good, or anything approaching it," he added.

"Exports have steadily declined, especially to the United States, formerly our chief consumer, and this has coincided with a steady fall in prices. Belgium and France are our chief competitors. Under normal conditions and a stable exchange we could cope with ordinary competition, but the exchange in these countries is to the advantage of foreign buyers and they continually undersell us.

"In consequence of these increased exports of foreign yarns, many of our mills have had to stop working, while the others are only working short time. However, the end of this downward trek is not [illegible] [illegible] and we are facing the future with courage and with hope. [illegible] must be admitted that the [illegible]

"It isn't the same thing at all," said the bunny, and he thought he would never find some memory bells for his wife when all of a sudden, as Mr. Longears was hopping beneath a pine tree in the woods, he heard a gentle tinkling, tinkling sound that he knew must be the same as the music made by the memory bells of which Mrs. Bow Wow spoke.

"Can there be a five and ten cent store up in that tree?" asked the bunny gentleman of himself, he being all alone. But there was no store in sight, only an old black crow. And as the bird hopped around again came that tinkling sound.

"Have you memory bells?" called up Uncle Wiggily.

"Oh, no," cawed the crow. "But I am cleaning out my nest, getting ready to fly south for the winter. I have [illegible] some pieces of tin, a glass bottle and a lot of string all tangled together. See?"

The crow held up in one claw a lot of shiny tinkling things fastened in a wad of string, and when the wind blew there was a pleasant musical sound.

"Why, those are just the same as memory bells," exclaimed Uncle Wiggily.

"Have you memory bells?" called up Uncle Wiggily

FILES WARRANT FOR ARREST OF LOCAL WOMAN

Mrs. Margaret Griffin Is Charged with Forgery; Ill at Home

A warrant for the arrest of Mrs. Margaret Griffin, 155 McWilliams-st, charged with forgery, was yesterday issued from the court of Justice M. O. Stoll. Mrs. Griffin is confined to her home with illness and will be arraigned on the charges when she recovers.

The affidavit against Mrs. Griffin was filed by A. W. Somerlot, W. Center-st., grocer, who charges that she gave him a check for $32, drawn on the Peoples Savings Bank of Marion and bearing the alleged signature of J. Wesley Griffin.

Sent to Workhouse

Samuel McIntyre of this city, yesterday was sent to the Dayton Workhouse, to serve a term of 90 days and work out a fine of $100 and costs.

McIntyre is the first person to be sent to the workhouse by Justice Stoll in the last two months. He was arrested two weeks ago in Union County and after being arraigned and sentenced, was given an opportunity to arrange for the care of his children. When he failed to provide for their care within a reasonable length of time, he was committed to the workhouse.

Marriage License

A marriage license was today issued to Fred H. Morrison, 49, 587 Silver-st. and Miss Blanche Porter, 44, 454 Forest-st.

SECTION OF ROAD NEAR HARDING TOMB CLOSED

All Traffic South Being Detoured Over Marion-Prospect Highway

The Harding Memorial section of the Marion-Delaware Highway, which has been open to local traffic during the earlier stages of the improvement work in progress there, is now completely closed, so that all autos going south beyond Marion Cemetery must detour over the Marion-Prospect pike.

This announcement was made today by County Surveyor C. R. Leavens, who says that the contracting firm putting in the Memorial highway improvement has started its steam shovel at work on the road, making travel along the route impossible.

Previous to this time traffic could go south a distance of six miles and many local autoists have been taking advantage of the convenience. Drivers will still be able to get back on the Marion-Delaware highway over and crossroad below the cemetery.

The detour for through traffic will continue over the Prospect and Radnor route. The Marion-Delaware highway is clear below Norton but the detour is not directed there because of the fact that the crossroad to Norton is unusually rough.

STOCK PRICES' ACTION WITHOUT SIGNIFICANCE

Bulls Make Early Effort To "Whoop Up" Trading on Reserve Reports

MARKETS AT A GLANCE

Railroad stocks steady; industrial stocks irregular; domestic bonds slightly irregular; foreign bonds firm; call money 5 per cent; grain steady; copper steady; oil irregular; rubber steady; sugar firm; pig iron firm foreign exchange fairly steady.

New York, Sept. 10—Outside of a few of the pool-directed specialty stocks and high-priced industrials, the movement of stock prices today was entirely without significance except as measuring the strength of the opposing bullish and bearish forces in and out of Wall Street.

The bulls made an effort to "whoop it up" in the early trading on the strength of the favorably weekly reserve bank reports and marked up prices two or three points in all of the active favorites.

The pool in a high-flying amusement stock which has quintupled its market value in the last few weeks resumed vigorous control of its specialty and whipped it up 7½ points more in heavy trading. But selling pressure predominated until well after the noon hour and several new weak spots were developed.

Quick Delivery Seen

The decrease of about 60,000 tons in forward orders of the United States Steel Corporation as reported at noon today reflects principally the increasing volume of quick delivery business rather than any considerable decline in business as a whole. Steel stock was apparently stabilized around $150 a share and trading was considerably below the average volume for this well known market leader.

The reserve banks showed an actual decrease in rediscounts, though some transferring of business from the western to eastern banks resulted in a loss of reserves at this end. Call money renewed at 5 per cent, and funds were in good supply at that rate.

General Motors and Studebaker led the forward movement in the motor stocks, the former reaching new high ground at 221. Mack Trucks was conspicuously weak and dipped about five points to 117 3-4, with a recovery to above 119 on short covering. The railroad stocks and the coppers, leaders in last week's upward movement of prices, remained on the inactive list today, not even the southwestern rails being able to break into the picture.
